

Safety Data Sheet

Pool Patch® (Pool Deck Coating Paint)

Dated: October 17, 2022.

1. Identification of the substance or mixture and of the supplier

1.1. Product identifier

Product Name: Pool Patch® (Pool Deck Coating Paint)

1.2. Relevant identified uses of the substance or mixture and uses advised against

Application: High-quality, specialty 100% acrylic sealer

1.3. Details of the supplier of the safety data sheet

Manufacturer/Supplier: Pool Patch

Address: 11430 N. Cave Creek Rd. Phoenix, Arizona 85020 USA

1.4. Emergency telephone number

Contact Detail

Emergency Contact Number: +800-588-4008

2. Hazards identification

2.1 Classification of the substance or mixture

The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended. See Section 11 for more detailed information on health effects and symptoms.

2.2. Label Elements:

Labelling according Regulation (EC) No 1272/2008

Pictogram: Not required

Signal Word: None

Hazard Statement: Not Dangerous Good

2.2 Other Hazards:

Not Identified.

3. Composition/Information on Ingredients

3.1 Description of Material

This product contains the following substances.

Ingredient	CAS number
Octylphenol ethoxylate	9036-19-5
Nepheline Syenite	37244-96-5
Distillates (petroleum), hydrotreated heavy paraffinic	64742-54-7
Titanium Dioxide	13463-67-7
Distillates (petroleum), solvent-dewaxed heavy paraffinic	6474-65-0
Propylene Glycol	57-55-6

4. Description of first aid measures

Eye contact:

Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.

**Skin contact:**

Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognised skin cleanser. Do NOT use solvents or thinners.

Ingestion:

If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do NOT induce vomiting.

Inhalation:

Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.

4.2. Most important symptoms and effects, both acute and delayed

For information on potential signs and symptoms of exposure, See Section 2

4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

5. Fire-fighting measures

Extinguishing media**Suitable extinguishing agents:**

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Special hazards arising from the substance or mixture:

Ambient fire may liberate hazardous vapours.

Advice for firefighters

In the event of fire, wear self-contained breathing apparatus.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

6.2. Environmental precautions

Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.

6.3. Methods and material for containment and cleaning up

Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

7. Handling and storage

7.1. Precautions for safe handling

Prevent the creation of flammable or explosive concentrations of vapours in air and avoid vapour concentrations higher than the occupational exposure limits. In addition, the product should only be used in areas from which all naked lights and other sources of ignition have been excluded. Electrical equipment should be protected to the appropriate standard.

7.2. Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations.

7.3. Specific End Use:

High-quality, specialty 100% acrylic sealer

8. Exposure controls/personal protection

8.1 Control parameters

Contains no substances with occupational exposure limited values.

8.2. Exposure controls

Engineering Control:

Provide adequate ventilation. Where reasonably practicable, this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and solvent vapours below the OEL, suitable respiratory protection must be worn.

Respiratory protection:

Use approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.

Eye Protection:

Avoid eye contact. Where eye contact or dusty conditions may be likely, dust tight goggles are recommended.

Skin:

Not normally required.

9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance:	Liquid
pH:	8.5-9.4
Melting Point:	Not available
Boiling Point Range:	100 C
Auto-ignition:	395 C
Specific Gravity:	1.3 @ 20 C
Vapor Pressure:	Not available
Solubility in water:	Miscible
Explosive Properties:	Not available
Relative Density:	Not available

9.2. Other information

Other information: None.

10. Stability and reactivity

10.1. Reactivity

No specific test data related to reactivity available for this product or its ingredients.

10.2. Chemical stability

The product is chemically stable under standard ambient conditions (room temperature) .

10.3. Possibility of hazardous reactions

Will not polymerize.

10.4. Conditions to avoid

When exposed to high temperatures may produce hazardous decomposition products.

10.5. Incompatible materials

Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids.

10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11. Toxicological information

11.1. Information on toxicological effects

Acute Toxicity:

: Based on available data, the classification criteria are not met.

Skin corrosion / irritation:

Prolonged excessive contact may irritate skin.

Serious eye damage / irritation:

Irritation and redness of eyes.

Inhalation:

May cause discomfort to hypersensitive individuals.

Aspiration hazard:

No information available.

12. Ecological information

Overview:

The mixture has been assessed following the summation method of the CLP Regulation (EC) No 1272/2008 and is not classified as hazardous to the environment.

12.1. Toxicity

There are no data available on the mixture itself.

12.2. Persistence and degradability

No data available.

12.3. Bioaccumulative potential

No data available

12.4. Mobility in soil

Not likely mobile in the environment due to its low water solubility.

12.5. Results of PBT and PvB assessment

No data available for assessment.

12.6. Other adverse effects

No data available

13. Disposal considerations

13.1. Waste Disposal Recommendations:

The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

14. Transport information

DOT (US), Canada (TDG), Mexico (MEX)	Not a hazardous material per DOT shipping requirements. Not classified or regulated.
IMDG	Not regulated; Not dangerous goods.
ICAO	Not regulated; Not dangerous goods.

IATA

Not regulated; Not dangerous goods.

Not regulated for transport under USDOT, EUADR, IATA, or IMDG regulations.

15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

The provisions of Directive 2004/42/EC on VOC apply to this product. Refer to the product label and/or technical data sheet for further information.

The information contained in this safety data sheet does not constitute the user's own assessment of workplace risks, as required by other health and safety legislation. The provisions of the national health and safety at work regulations apply to the use of this product at work.

EH40/2005 Workplace exposure limits Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No. 2015/830

15.2. Chemical safety assessment:

For this product a chemical safety assessment was not carried out.

16. Other information

Other Information:

This information is provided for documentation purposes only.

Disclaimer:

The information herein is presented in good faith and believed to be accurate as of the effective date given. However, no warranty, expressed or implied, is given. It is the buyer's responsibility to ensure that its activities comply with Federal, State or provincial and local laws.
